Roman Mazuryk

Technical Project Manager / Implementation Lead

romazuryk@gmail.com · Ahrensburg, Hamburg area, Germany · linkedin.com/in/roman-mazuryk · mazuryk.dev

PROFILE

Technical project manager and implementation lead with 20+ years in medical technology, pharma and logistics, including 12+ years delivering complex, client-facing system implementations in regulated environments. Over 20 systems delivered end to end, covering requirements, vendor coordination, technical delivery, rollout and user adoption.

Most recently owned the rollout of internal warehouse and logistics systems in a GDP-regulated environment, substantially reducing manual coordination effort and establishing full traceability across the order lifecycle. Fluent enough in APIs and data flows to steer engineering teams, experienced enough with clinical and operational stakeholders to run discovery, workshops and go-live. EU work authorisation, based in Hamburg, open to remote across the EU.

CORE COMPETENCIES

Delivery and Project Management

End-to-end project ownership, scoping, planning and rollout, stakeholder management up to executive level, risk and timeline control, requirements gathering, workshop facilitation, vendor coordination

Technical Implementation

SaaS implementation and configuration, API integrations and system interoperability, data flows, dashboards and analytics, technical coordination of engineering teams, process automation including LLM-based workflows

Regulated and Clinical Environments

GDP, ISO 9001, traceability and audit readiness, role-based access models, DICOM image flows, PACS and RIS connectivity, integrated operating rooms

Methods

Agile and Scrum, backlog management, Jira, Confluence

PROFESSIONAL EXPERIENCE

Independent projects and Master's work · 01/2026 to present

mazuryk.dev, Hamburg, Germany

Focus: *Hands-on AI and software builds alongside the final year of the M.Sc. in Computer Science.*

- Rolevoice (M.Sc. capstone): AI-assisted foreign-language assessment for professionals. First pilot: German
- AlphaRhythm: trade journaling and rule-compliance app for traders, pre-beta
- Run my own builds on an AI-assisted delivery setup: defined agent roles, one versioned source of truth, decision logs and review gates

Commercial Specialist, Freight Forwarding and Logistics · 08/2024 to 11/2025

PharmaLogis GmbH, Reinbek near Hamburg, Germany

Focus: *Introduction of internal systems and process digitalisation across operations.*

Company: *Pharmaceutical logistics provider, GDP- and ISO-9001-certified, covering the full supply chain from procurement to distribution.*

- Built and rolled out an internal software solution consolidating trading operations and supply chain processes
- Substantially reduced manual coordination effort, estimated at around 30 percent, measured by recurring alignment steps removed
- Designed and brought to production a role-based dashboard with order lifecycle tracking and analytics
- Managed integrations and data flows across multiple systems, establishing end-to-end traceability
- Owned the full project lifecycle: scoping, planning, execution, rollout and user support

- Ensured GDP and ISO 9001 compliance throughout delivery

Founder and Technical Project Manager · 12/2012 to 05/2024

Medintegro, Kyiv, Ukraine

Company: *Systems integrator for medical technology, founded and led by me. Clients were hospitals and private clinics, suppliers manufacturers across the EU, US and Asia.*

- Delivered 20+ client-facing system projects across OR video, imaging and automation, from technical discovery through installation and training
- Reduced post-handover queries and open items by an estimated 20 to 25 percent through standardised workflows, checklists and handover documentation
- Delivered imaging integration in integrated operating rooms: configured DICOM image flows between modalities and the integration system, coordinated with vendors, ran acceptance testing
- Coordinated connectivity to hospital PACS and RIS environments and multi-vendor integrations across three continents
- Acted as senior client-facing lead, building long-term relationships and securing repeat business
- Ran delivery and the P&L; managed timelines, risks and teams across a concurrent project portfolio

CEO and Head of International Business Development · 06/2011 to 08/2012

Acropolus Biosciences, Kyiv, Ukraine

Company: *Exclusive distributor of Genom Biotech Pvt Ltd (India) on the regulated Ukrainian pharmaceutical market.*

- Full P&L and operational ownership of a business with 70+ employees
- Ran exclusive distribution for an international manufacturer in a regulated market
- Led operational restructuring and system-level improvements to support scaling

Sales and Project Roles, Pharma and Medical Technology · 2005 to 2011

International manufacturers and distributors, Kyiv, Ukraine

- Human Impress, medical devices for cardiac surgery and electrophysiology, 2011
- KGP Pharma, pharmaceutical distribution, 2009 to 2010
- PCC PLC and Aurora, distribution of active pharmaceutical ingredients (API), 2007 to 2008
- Nabros Pharma, pharmaceutical distribution, 2005 to 2006

Built the domain foundation in regulated environments: working across manufacturers, distributors and clinical users, managing supply chains under regulatory constraints, first exposure to medical systems in clinical use.

EDUCATION

M.Sc. Computer Science · 2024 to expected 12/2026

Woolf University, Malta and GoIT Neoversity, EQF 7, 90 ECTS, part-time online

Project Management Certificate · 2025

GoIT, Kyiv

B.A. Linguistics · 2000 to 2005

National Technical University of Ukraine "Igor Sikorsky KPI", Kyiv

LANGUAGES

Ukrainian: Native

Russian: Native

English: C1, professional working proficiency

German: B1, certification exam Dec 2026
